Rose Name	Like	Dislike
Adobe Sunrise		1st year in garden, hasn't grown much
Always and Forever		Slow repeat
Astounding Glory	The plant was a good grower up to four foot tall and a good repeat bloomer. The Blooms were a good red color and about four inches in diameter.	
Bill Reid	great glowing rich golden color. Seems vigorous here in it's first year. Held up well to heat. At this time, it appears to be disease resistant with no blackspot or other disease. Lots of blooms.	Canadian, surprised there was powdery mildew
Bull's Eye	Color is exciting, distinctive. Bush was rather short all season and then put on good growth near end of summer. Blooms a lot.	Flowers open quickly, and do not last long on the bush.
Caribbean Breeze	The flowers are beautiful.	
Cinnamon Dolce	Form is outstanding, color is impressive, lasting ability is very good. Happy bush and freely flowering.	
Cooper	Form is lovely. Bush is healthy and strong.	
Diane's Delight	The bloom form is quite lovely.	The plant is small and doesn't appear to be growing. It is on its own roots.
Dick Clark	Very vigorous growth, lots of great bloom smiles! Hardy and	Not vigorous.
Dina Gee	It is a strong plant.	The blooms are small and flat.
Dixieland Linda	Vigor and growth similar to Aloha	
Eyeconic Lemonade	Best of the Eyeconic Roses. Color is unusual.	
Francis Meilland	Blossoms have beautiful form that holds well. Long stems with large, attractive blooms. Wonderful fragrance reminding me of Sharifa Asma by David Austin. Repeats well.	Not vigorous.
Grande Dame	Seems to be a disease resistant. the best thing about this rose is the smell is WONDERFUL!!	Stems are too weak to hold up the buds. Attracts earwigs. Does not generally have exhibition form. Frequently blooms in sprays that droop.
Happy Go Lucky		Not vigorous.
Heroes Rose	Mine is own root and love the color and the flower. Not a difficult rose to grow, so far that is.	

Ketchup & Mustard	Unique and delightful blooms. The bright yellow that offsets the deep red. The bloom is perfect just before it opens. great rose! gorgeous sprays of 5-7 blooms, beautiful color that doesnt fade.	Blooms are too small to exhibit. Small bush, slow to bloom, uneven blooming habit. Wilted quickly. Striking contrast but unable to display.
Koko Loko	The color of this rose is amazing. Starts Tan with light yellow base and turns smoky lavender. The blooms were three to four inches, and a good repeat bloomer.	
Love Song	The color form and fragrance are awesome!	Slow to repeat until established.
Monkey Business		Not a good bloomer and what blooms did come were not well formed and went away in a heartbeat.
Oh My!		Not vigorous.
Pookah	Very good garden rose. Lots of bloom. Large sprays will require a lot of grooming to show.	
Shawn Sease	I like the bloom form and that most blooms are exhibition quality. The bush is strong and always does well.	
Silicon Valley Diamond	Beautiful single blooms and disease free	
Smoke Rings	Good color	Needs iron supplement. Easily rusts. Flowering is inconsistent.
Sugar Moon	Very vigorous and disease free. Blossoms have nice form. Lovely foilage.	Number of petals is lowish - like a heavy semi-double.
Summer Sun	Plant was slow to take off, turn in to three foot bush. The flowers were about three inches and changed to more dark pink with the sun.	Had to spray for a small amount of mildew.
Tabasco Cat	Gorgeous color	Disease magnet
Walking on Sunshine	Happy clusters of bloom smiles. Seems to be a happy and hardy rosebush. No real disease issues.	Wish the blooms lasted longer.
