

Variety	Like	Dislike
Abigail Elise	Died first winter	
Annie Davidson	This rose was a surprise, produces lovely, fragrant blooms. Denver winters are extremely harsh but this rose has survived against all odds. Looks a little like Queen Elizabeth but better scent. This is also a vigorous rose.	Flowers burn to a crisp in hot sun. Stingy bloomer.
Baldo Villegas		Did not survive in zone 5
Bill Reid	Hardy (minimal winter protection) and came back strong with pretty repeat blooms. Bright yellow especially attractive. Also like the shape of the flower.	
Bohemian Rhapsody	Lovely cream with pink center. Multiple blooms.	
Boscobel	Attractive plant in the garden. Solid, and usually healthy. Excellent short rose that blooms continuously unique salmon pink color	Flowers fade quickly. Don't see many like the catalog.
Bull's Eye		Will not tolerate shade. Blooms do not last long on the bush.
Campfire	Once established, plant flowers often, in clusters that change color daily. Always something new to see.	Have not had deep color blooms it looks washed out
Cooper	Beautiful form that lasts	
Coretta Scott King		Died in mild winter
Daddy Frank	Very tall and branchy for a miniature. Flowers small for size of branches and foliage, but can make the trophy table if care is taken.	Starting to mildew worse each year.
Dixieland Linda	Bloom quantity and repeat as well as growth just like Aloha	
Doris Day	Doris holds her rich yellow color very well unlike some other yellow roses that turn to white in a flash. Blooms in abundance too!	
Eyeconic Lemonade	Lovely color.	Small blooms does not bloom in sprays
Eyeconic Pink Lemonade		
Eyes on Me (Raspberry Kiss)		
Fired Up	Bright, orange/yellow striped clusters. Eyecatching. Strong growth habit.	
Flamingo Dancer		Slow to take off
Francis Meiland	Lovely rose with a great scent but does not rebloom very well for me	
Gift of Love		
Good as Gold	Unique coloring that changes as it ages	
Happy Go Lucky	Tall!	
Heathcliff	This year's David Austin bare-roots came late and were of poor quality. Heathcliff has been slow and reluctant to establish.	
Hypnotized	Beautiful, striped flowers, different from most other stripes But - bare-root plant has been slow to establish	
Ketchup & Mustard	This rose blooms all season long, lot's of flowers and they last for days.	I don't think it will be a very good show rose
King of the Road		
Love Song	Tolerates heat well. Beautiful light purple color. Blooms were big and beautiful, well fragranced delights.	Large blooms droop in the rain. All of the roses bloom in a large flush. Extremely slow to get to growing when planted as a bare root rose, nearly gave up! Some blooms too big for the canes to support. Did not pass her winters test here.
Mel's Heritage		
Neil Diamond	Survives hot, mid-day sun.	
Oso Happy Smoothie		
Pacific Celebration		2 plants in two years both died in 1st winter

Popcorn Drift	The bush is very tiny. It is a first year bush, so maybe next year it will do better.	
Sandy's Pick		
School Spirit	Very florifeous	
Shawn Sease	Very good show form that lasts.	
Sparkle & Shine	This is a hardy plant with minimal disease that camethrough the freeze/thaw temperatures of Denver. The blossoms are vibrant yellow.	
Sunny Sky		Hasn't bloomed since the first flush. Looks healthy. Good Foliage. Not sure why it isn't blooming.
Sunshine Daydream	Beautiful pale yellow color, good petal count. Form - wants to bloom even in 90+ degree temps.	
The Lark Ascending		
Tooth Fairy		
Tranquility		Did not survive fall freeze.
Twilight Zone	Color and the size of the blooms. Lovely scent.	Reblooms well but blooms are fragile and do not last
Walking on Sunshine		Just a bit weak and the color goes away quickly.
Whimsy	Beautiful pink mini, good bloomer	
Winter Sun		
You're the One	Love the color and the form of this rose
